AMENDMENTS TO THE SPECIFICATION

2

Following the title, please insert the following paragraphs:

Cross-Reference to Prior Application

This is a U.S. national phase application under 35 U.S.C. §371 of International Patent Application No. PCT/JP2003/008166 filed June 27, 2003, and claims the benefit of Japanese Patent Application No. 2002-188541 filed June 27, 2002 both of which are incorporated by reference herein. The International Application was published in Japanese on January 8, 2004 as WO 2004/002996 A1 under PCT Article 21(2).

A substitute specification is provided herein to amend the representation of a chemical group -- ferrocenyl group. A marked-up copy and a clean copy are provided herein. The amended representations of the chemical strucutures show the correct form of the ferrocenyl group. Support for the amendments can be found in the term "ferrocenyl" of the ferrocenyl compounds noted in the working examples. No new matter has been added.
